Note from the Director

Dear Fuller Community,

The Hubbard Library is excited to announce the library building is reopening on June 1, 2021! Our staff have been working hard in preparation for the return of our patrons and look forward to serving them in person. For the most part, the library will be open, with some of our services still being remote (i.e. reference appointments). We are still offering book pick up for our patrons who do not feel comfortable coming to campus. Additional information regarding our reopening is listed below in the article "Library Building Reopening."

Lastly, I'd personally like to congratulate Fuller Theological Seminary's Class of 2021! Although your graduation is not what you had imagined, however, your perseverance and dedication (especially this last year) warrants some well-deserved praise. As you go out into the world, remember that Fuller and the Hubbard Library are proud to have you as our Alumni. Congratulations Class of 2021!

Daniell Whittington, MLIS, MA
Executive Director of the Library

Database Spotlight

This quarter's database is a trial of Global Missions and Theology. This collection documents the broad range of Nineteenth Century religious missionary activities, practices and thought in the United States by reproducing pivotal personal narratives, organizational records, and biographies of the essential leaders, simple missionaries, and churches. This collection includes materials on missionary activities among Native Americans and African Americans, both slaves and freedmen.
